

RAFLY AHMAD ZAINUR

Kendari, Indonesia (ID) | +62 82231069409 | Data Scientist | AI | Web Development | Android Development | Graphic Design | UI/UX Design | Financial Data Analyst | raflyahmad22135@gmail.com | linkedin.com/in/raflyahmadzainur/ | raflyahmadzainur.vercel.app/

EDUCATION

HALU OLEO UNIVERSITY

Bachelor of Engineering

Major in Informatics Engineering;

Cumulative GPA: 3.86/4.0 (Magna Cum Laude);

Relevant Coursework: Data Analyst; AI; Web Development; Android Development; Graphic Design; UI/UX Design Algorithms; Object-Oriented Programming; Troubleshooting; Software Engineering; Database; Financial Analyst; Data Entry; Problem Solving; Data Analyst;

Kendari, ID

Graduation in 2026

KENDARI 1 STATE SENIOR HIGH SCHOOL

Mathematics and Natural Sciences (MIPA)

Final Grade: 89.61/100;

Focus Areas: Mathematics, Analytical Thinking, Logical Reasoning, Problem Solving, and Basic Science;

Kendari, ID

Graduation in 2022

EXPERIENCE

CENTRAL BANK OF INDONESIA KPW SULAWESI TENGGARA

Programmer and Financial Data Analyst Internship

- Developed the Bank Indonesia Southeast Sulawesi Library Management Information System website, accessible at: perpustakaanbisultra.com

- Process and present regional economic data to support economic analysis and reporting.

- Perform data analysis, reporting, and financial oversight in accordance with Bank Indonesia's assigned responsibilities.

Kendari, ID

Jun 2026 – Agu 2026

PT BANK RAKYAT INDONESIA (PERSERO) TBK

IT Support and E-Channel Specialist Internship

- Provide technical assistance in case of disruption to e-channel services.

- Messaging for all e-channel services (ATM, internet banking, mobile banking, SMS banking, EDC, QRIS) runs smoothly.

- Monitor service uptime, performance, and availability.

Kendari, ID

Agu 2025 – Sep 2025

SEKRETARIAT DAERAH KOTA KENDARI

Web Developer Internship

- Create a website-based application "Digital Guest Book System" to help collect guest data at the Kendari City Regional Secretariat.

- Assist employees in creating Performance Trees.

- Create Power Points for Public Presentations.

Kendari, ID

Jan 2025 – Feb 2025

STUDENT COMMUNITY SERVICE – FREEDOM TO LEARN, INDEPENDENT CAMPUS (KKN-MBKM)

Fullstack Developer – KKN-MBKM x BPS East Kolaka

- Served as a Web Programmer in the KKN-MBKM program in collaboration with BPS Kolaka Timur and Simbune Village Government.

- Developed a website and application to support the collection and management of village statistical data.

- Implemented digital solutions to improve the accessibility and presentation of village statistical information for data-driven development.

East Kolaka, ID

Juli 2024 – Jan 2025

ORGANIZATIONS

GOOGLE DEVELOPER STUDENT CLUBS (GDSC) UHO

Member of Machine Learning Course

- Developed and organized structured learning paths for GDSC UHO, covering machine learning, cloud computing, mobile development, web development, and UI/UX design.

Kendari, ID

Jan 2024 – Jan 2024

- Designed a machine learning curriculum with hands-on projects to simplify complex concepts and provide practical skills.

HIMPUNAN MAHASISWA TEKNIK INFORMATIKA (HMTI) FT-UHO

Kendari, ID

Member of Social Affairs and Community Relations Department

Des 2023 – Des 2023

- Spearheaded the strategic planning and flawless execution of over five captivating sharing sessions and webinars, delving into diverse IT topics to foster knowledge exchange and engagement within the community.
- Pioneered the "HMTI Goes to School" initiative, designing and delivering immersive workshops to empower more than 30 high school students in the realms of IT, graphic design, and networking. practical skills.

GERAKAN NASIONAL 1000 STARTUP DIGITAL

Kendari, ID

Youth Program Coordinator

Feb 2023 – Jun 2023

- The National Movement of 1000 Digital Startups is an early-stage startup development program initiated by the Ministry of Communication and Informatics of the Republic of Indonesia.
- The program has been implemented since 2016 through the Directorate General of Informatics Applications to support the development of Indonesia's digital startup

MAJELIS ANAK NEGERI (MAN)

Kendari, ID

Program Coordinator

Aug 2021 – Feb 2023

- The "Majelis Anak Negeri" Voluntary Foundation was founded in 2020 by individuals committed to promoting community welfare..
- The foundation provides a platform for individuals to contribute to society through volunteer activities across various fields ecosystem.

YOUTH SCIENCE CLUB (KIR)

Kendari, ID

Member of Mathematics Division

Mar 2020 – Sep 2019

- Managed academic and scientific competition activities, including participant registration, competition mechanisms, and coordination to ensure smooth implementation.
- Developed academic and scientific writing materials while facilitating informative discussions to broaden students' knowledge and support their preparation for competitions.

ISLAMIC ASSOCIATION SMA NEGERI 1 KENDARI (PRISMA)

Kendari, ID

Member of Social Affairs and Community Relations Department

Sep 2019 – Sep 2019

- Participated in organizing open submissions and managing spiritual seminars to encourage student participation and engagement.
- Conducted research and prepared discussion topics, questions, and social media content related to relevant spiritual issues.

PROJECTS

CENTRAL BANK OF INDONESIA SOUTHEAST SULAWESI LIBRARY MANAGEMENT INFORMATION SYSTEM

Aug 2026

- Developed the Bank Indonesia Southeast Sulawesi Library Management Information System website, accessible at: perpustakaanbisultra.com.
- Implemented features for managing book collections, library information, and user access through a centralized web-based platform..
- Designed a responsive and user-friendly interface to improve accessibility and efficiency for library administrators and users.
- Utilized: Laravel, PHP, MySQL, Bootstrap, HTML, CSS, and JavaScript.

INTELLIGENT AUDIT SYSTEM USING YOU ONLY LOOK ONCE (YOLO) AND MAMDANI FUZZY LOGIC FOR PUBLIC SPACE QUALITY EVALUATION IN KENDARI CITY

Apr 2026

- Developed an intelligent audit system to evaluate public space quality using computer vision and Mamdani fuzzy logic.
- Implemented the YOLOv11 object detection algorithm to identify public space facilities and environmental indicators from static images.
- Applied Mamdani Fuzzy Logic to process detection results and generate an automated public space quality evaluation.
- Developed a web-based interface using Flask to display detection results, evaluation scores, and audit recommendations.
- Utilized: Python, YOLOv11, Flask, OpenCV, Mamdani Fuzzy Logic, Scikit-Fuzzy, and Data Visualization.

IMPLEMENTATION OF A DRIVER DISTRACTION DETECTION SYSTEM BASED ON GEOMETRIC KEYPOINT BODY ANALYSIS USING THE YOLOV11 S-POSE IN REAL TIME - Developed a driver distraction detection system using the YOLOv11s-pose algorithm to analyze driver body keypoints in real time. - Applied geometric keypoint analysis to identify distraction. - Results show the system accurately detects driver distraction in real time to support transportation safety. - Utilized: Python, YOLOv11, OpenCV, and Jupyter Notebook.	Jan 2026
PORTFOLIO WEBSITE - Designed and developed a personal responsive portfolio website to showcase software engineering, computer vision, and machine learning projects. - Implemented modern UI/UX principles with interactive components, smooth navigation, and optimized assets for fast loading performance across devices. - Integrated project documentation, live demo links, and contact channels to establish a professional digital presence. - Utilized: Next.js, React, Tailwind CSS, TypeScript, and Vercel.	Jan 2026
CLASSIFICATION OF DIGESTIVE SYMPTOM COMPLAINTS USING LONG SHORT-TERM MEMORY (LSTM) FOR PRELIMINARY DIAGNOSIS VIA ANDROID - Developed an intelligent mobile health application utilizing Long Short-Term Memory (LSTM) to classify digestive symptom descriptions for early preliminary diagnosis. - Trained and evaluated a sequential text/time-series classification model, then converted and optimized the network into TensorFlow Lite (TFLite) for lightweight on-device inference. - Built an intuitive Android interface allowing users to input medical complaints and instantly receive preliminary diagnostic insights without requiring cloud-side latency. - Utilized: Kotlin, TensorFlow Lite, Python, NLP, Android Studio, and Git.	Feb 2025
DIGITAL GUESTBOOK SYSTEM KENDARI CITY REGIONAL SECRETARIAT - Developed a digital guestbook system to streamline visitor registration and improve guest data management at the Kendari City Regional Secretariat. - Designed and implemented a web-based system for recording, managing, and monitoring visitor information digitally. - Applied a structured database system to improve the organization, accessibility, and efficiency of guest records. - Utilized: PHP Native, Bootstrap, MySQL, HTML, CSS, and JavaScript. Notebook.	Jan 2025
SIMBUNE VILLAGE ADMINISTRATIVE RECORDS AND STATISTICS INFORMATION SYSTEM (SI-CANTIK SIMBUNE) - Developed a web-based village administration and demographic statistics system to digitize population records and public administration services in Simbune Village. - Implemented administrative document management modules, citizen demographic records, and interactive statistical data visualizations (e.g., charts for age, occupation, and education). - Designed role-based authentication to streamline administrative workflow for village officials while providing transparent public demographic summaries. - Utilized: PHP, MySQL, Bootstrap, Chart.js, HTML, CSS, and JavaScript.	Aug 2024
ACHIEVEMENT	
PARTICIPANTS IN THE 2025 FORKESTRA COMPETITION Bank of Indonesia, Southeast Sulawesi Province - Presented a research project titled “SmartEcoSpatial: A Visibility Analysis System for Sustainable Spatial Planning in Kendari City using Mask2Former Segmentation”. - Developed a system that extracts Green View Index (GVI), Building View Index (BVI), and Natural View Index (NVI) from 501 images across 167 locations. - The system supports identification of potential development areas and revitalization priorities for sustainable spatial planning in Kendari City.	Kendari, ID Sep 2025
BPS TOP 25 NATIONAL FACILITATORS FOR DESA CANTIK PROGRAM 2024 National Science Olympiad Training Selected among the Top 25 National Facilitators out of nationwide participants in the Desa Cinta Statistik (Desa Cantik) program organized by BPS RI.	Jakarta, ID Feb 2025

- Mentored and empowered village administrative staff in modern statistical data collection, data standardization, and digital record governance.
- Facilitated the implementation of data-driven decision-making frameworks to improve the accuracy of rural socioeconomic profiles and village planning.

GOLD MEDALIST NATIONAL SCIENCE HERO OLYMPIAD IN MATHEMATICS

Medan, ID
Nov 2020

National Science Olympiad Training

- Achieved Gold Medal in the National Science Hero Olympiad in the Mathematics category.
- Demonstrated strong problem-solving, critical thinking, and quantitative analysis skills during the competition.
- Competed with students from various schools and regions at the national level.

3RD PLACE IN THE GEBYAR BAHASA SCIENTIFIC WRITING COMPETITION

Kendari, ID
Okt 2019

Faculty of Teacher Training and Education, Halu Oleo University

- Achieved 3rd place in a scientific writing competition among university students.
- Presented a research paper addressing innovative solutions and analytical approaches to contemporary issues.
- Demonstrated strong research, academic writing, and critical analysis skills through structured scientific methodology.

PUBLICATIONS

AN INTELLIGENT AUDIT SYSTEM USING YOLOV11 AND MAMDANI FUZZY LOGIC FOR PUBLIC SPACE QUALITY EVALUATION IN KENDARI CITY

Jul 2026

Developed an intelligent web-based audit system using YOLOv11 and Mamdani Fuzzy Logic to evaluate public space quality and support more efficient monitoring in Kendari City management.

IMPLEMENTATION OF MAMDANI FUZZY LOGIC IN DETERMINING THE INDEX AND OPTIMIZING THE QUALITY OF GREEN OPEN SPACES (CASE STUDY: MTQ AREA)

Apr 2026

Implemented Mamdani Fuzzy Logic to determine a quality index and optimize the evaluation of Green Open Spaces (RTH), using the MTQ Area as a case study.

DESIGN OF A WEBSITE-BASED DIGITAL GUESTBOOK INFORMATION SYSTEM CASE STUDY: ORGANIZATION AND GOVERNANCE DIVISION, REGIONAL SECRETARIAT

Nov 2025

Developed a website-based Digital Guestbook Information System to support guest data collection, management, and digital administration in the Organization and Governance Division of the Regional Secretariat.

TECHNICAL SKILLS

Languages: Languages: Python, PHP, JavaScript, TypeScript, Kotlin, Java, C++, SQL, HTML5, CSS3

Frameworks & Libraries: Web Backend & Frontend: Laravel, Flask, Next.js, React, Django, Bootstrap, Tailwind CSS | Machine Learning: TensorFlow, TensorFlow Lite (TFLite), PyTorch, Ultralytics YOLO, OpenCV, Scikit-Learn, Scikit-Fuzzy, Keras, NumPy, Pandas, Matplotlib | Android Development: Android SDK, Kotlin, Flutter, Java.

Developer Tools & Platforms: Git, GitHub, Android Studio, Antigravity, VS Code, Cursor, Jupyter Notebook, AMPPS, XAMPP, Vercel, Composer, npm.

Databases & Systems: MySQL, MariaDB, SQLite.

Certifications & Training: Graphic Designer (Badan Nasional Sertifikasi Profesi), Create a Financial Statement using Microsoft Excel (Coursera), Creating a Budget with Microsoft Excel (Coursera), Getting Started with Microsoft Excel (Coursera), How to Use Lookup Reference Math and Text (Coursera), Free Trial Excel (DQLab), Fundamental SQL Using SELECT Statement (DQLab), Guide to Learn Python with AI (DQLab), Guide to Learn R with AI (DQLab), Guide to Learn SQL with AI (DQLab), Introduction to Data Science with Python (DQLab), Introduction to Data Science with R (DQLab), Python Fundamental for Data Science (DQLab), R Fundamental for Data Science (DQLab), Memulai Pemrograman Dengan Java (Dicoding), Memulai Pemrograman Dengan C (Dicoding), Python (Basic) (HackerRank), Javascript (Basic) (HackerRank), K3 Umum (Mita Training), C# Dasar (Skillvul), Data Analytics Essentials (Cisco Networking Academy), PCAP: Programming Essentials in Python (OpenEDG Python Institute).
